

# COZMO® Coding AI Robot

**S.T.E.A.M. KITS**  
from Magic Lantern Media

- Cozmo's big brain & bigger personality are controlled by sophisticated robotic and AI systems including facial recognition through Cozmo's free app (iOS/Android)
- Free available lesson plans allow teachers to easily integrate into the classroom
- Pre-loaded with activities to keep younger grades (Gr 3+) keen and engaged
- Code Lab allows simple drag and drop coding blocks for students to learn coding
- Use the powerful Cozmo Software Development Kit (SDK) to tap into Cozmo's advanced robotics hardware and software, and make Cozmo part of any high schools' programming classes.
- Suitable for grades 3-12

**\$249.99**

## **Sandbox Mode – Grades 3 to 8**

The best place to learn coding. Simple “snap” together virtual code blocks to create simple commands. Complete challenges to grow skills.

## **Constructor Mode – Grades 9-12**

Take your coding skills to the next level. With concepts like branching and variables, create complex projects with endless possibilities.
